4ºDSM – REVIEW P1

EXERCISE 1: *Fill in the blanks with the correct preposition (at, in, on, from, to).*

1. Our daily stand-up meeting starts _____ 09:00 AM every morning.
2. The DevOps team scheduled the server maintenance _____ Friday evening.
3. Sprint 4 begins _____ May 12th and ends _____ May 23rd.
4. We usually do major software deployments _____ the evening when user traffic is low.
5. The developers work on code reviews _____ 2:00 PM _____ 4:00 PM.

EXERCISE 2: *Complete the sentences a company policy. Use 'can' or 'can't' according to the indicated in parentheses.*

1. Developers _____ start work between 7:00 AM and 10:00 AM under the flexi-time policy. (Permission)
2. You _____ deploy untested code directly to production; it is strictly prohibited. (Prohibition)
3. Alex _____ fix backend bugs in Python, but he _____ write React components yet. (Ability / Inability)
4. We _____ take a break after 4 hours of continuous work in the software lab. (Permission)
5. External visitors _____ enter the server room without an authorized security badge. (Prohibition)

EXERCISE 3: *Unscramble the words to form correct polite requests for tech support and meetings.*

1. (you / check / the server logs / could / please / ?)

_____

2. (I / can / remote access / request / for the database / ?)

_____

3. (we / reschedule / could / our progress meeting / to 3:00 PM / ?)

_____

4. (send / you / can / the updated API documentation / ?)

_____

5. (could / help / you / fix / this syntax error / me / ?)

_____

EXERCISE 4: *Match the IT & Sprint terms (1–6) to their correct definitions (A–F).*

1. Blocker ( )	A) A temporary solution used to bypass a technical issue.
2. Outage ( )	B) A complete system failure where services become unavailable.
3. On schedule ( )	C) An issue that prevents team members from making progress.
4. Workaround ( )	D) Moving completed software features to the live environment.
5. API Endpoint ( )	E) Completing tasks according to the planned timeline.
6. Deployment ( )	F) A specific URL where an application accesses server resources.

EXERCISE 5: *Complete the dialogue between a Tech Lead and Developer using the phrases in the box.*

behind schedule	where are we	fix this	have a problem	on schedule

Tech Lead: Hi Alex! (1) _____ with the payment gateway integration?
Developer: Well, we (2) _____ with the database connection. The API keeps timing out.
Tech Lead: I see. Are we still (3) _____ for Friday's release?
Developer: Unfortunately no. We are currently two days (4) _____.
Tech Lead: How can we (5) _____?
Developer: We can implement a temporary workaround and optimize the queries by tomorrow.

EXERCISE 6: *Choose the correct technical option (A or B) to complete each incident report.*

1. Users cannot log in because the authentication server suffered an unexpected…
   A. outage B. flexi-time.
2. The mobile app crashes on launch due to a memory leak…
   A. bug B. schedule
3. Backend developers must resolve a critical… before proceeding with UI design.
   A. deadline B. blocker
4. The team applied a temporary… while waiting for the official patch.
   A. workaround B. milestone
5. The build failed because the automated test suite detected a breaking… .
   A. syntax error B. shift

EXERCISE 7: *Match each technical issue (1–4) with the appropriate deadline negotiation response (A–D).*

1. Database migration is taking longer than expected. → (___)
2. Third-party payment API is down for maintenance. → (___)
3. Senior QA engineer is on sick leave this week. → (___)
4. Client requested two new features for Sprint 5. → (___)

A. Can we extend the sprint deadline by two days to complete full integration testing?
B. Could we postpone the security audit to next Monday when the engineer returns?
C. I propose we push the release date to May 20th to accommodate the new requirements.
D. We need to delay the data sync step until the payment provider restores service.

ANSWER KEY FOR SELF-CORRECTION

Exercise 1:
1. at
2. on
3. on / on
4. in
5. from / to

Exercise 2:
1. can
2. can't
3. can / can't
4. can
5. can't

Exercise 3:
1. Could you check the server logs, please?
2. Can I request remote access for the database?
3. Could we reschedule our progress meeting to 3:00 PM?
4. Can you send the updated API documentation?
5. Could you help me fix this syntax error?

Exercise 4:
1-C
2-B
3-E
4-A
5-F
6-D

Exercise 5:
(1) where are we
(2) have a problem
(3) on schedule
(4) behind schedule
(5) fix this

Exercise 6:
1. A (outage)
2. A (bug)
3. B (blocker)
4. A (workaround)
5. A (syntax error)

Exercise 7:
1-D
2-A
3-B
4-C
